To inspire & develop social & creative skills.

To discover a refreshing form of fun & education, in the form of a relaxed creative workshop or party.

Building new found confidence & courage to 'try something different' individually or within a group, no matter age, ability or background.

As the founder & creator of all things Zappy I consistently pass on my skills, enthusiasm, passion & originality as I develop the business;

An idea born out of my heart & inspiration from everyday life,
in full multi-colour.

From the very beginnings of the first 'Zappy design' - a simple white daisy, created & painted onto a sweeping brush. given as a gift to Granny, to now over 30 exclusive 'Zappy designs'

I continue to thoroughly enjoy my journey both locally & further afield;
as far as The Scilly Isles & Tenerife

The businesses ethos & desire is to share & pass on a unique simplistic art form, teaching skills & unequalled patience & guidance, to a broad sector of the community, from the very young to a more senior generation.

Giving the chance to discover & re-discover the value of
'creative learning with fun always thrown in"

The original Zappy Daisy design
